Work Experience

ClearCall Solutions

Programmer

October 2014 to January 2015

(90-day contract)

- Authored and modified complex MySQL queries to generate reports
- Interfaced with various APIs using C# and PHP applications to sync data from third-party systems
- Verified integrity of generated report output
- Maintenance and creation of websites in WordPress and custom PHP

Chapman Automotive

Web Developer

January 2014 to August 2014

- Updated existing websites with new responsive designs
- Maintained legacy sites and technology in classic ASP and ASP.NET
- Patched security holes (e.g. SQL injection points) in old code
- Developed new web software for internal use, such as inventory management

College of Arts & Sciences IT (CASIT)

Web Developer

October 2008 to November 2013

Promoted from student employee to staff in September, 2010

- Created and maintained over 30 department websites
- Designed new sites, and redesigned old sites to look more modern
- Translated visual mockups into HTML/CSS
- Authored WordPress themes and plugins
- Developed web software for automation of office tasks, including applications and video rentals
- Trained faculty and staff in use of technical software
- Managed communication in five to ten simultaneous projects

Projects

More projects can be seen on my portfolio at nikkidelrosso.com

ClearCall Solutions Website

<http://clearcallsolutions.com/>

Responsive Custom WordPress theme built for ClearCall Solutions. This theme was built to match the provided design mockups and features custom design on every page. The theme utilizes shortcodes and custom post types to maintain editability of text within custom layout elements, and also utilizes the Advanced Custom Fields plugin.

CAS WordPress Framework

<http://cas.uoregon.edu/>

WordPress theme built for the College of Arts & Sciences (CAS) at the University of Oregon. I was responsible for creating a responsive WordPress theme framework for the CAS website, as well as department websites, using designs provided by the college.

Education

University of Oregon

Computer and Information Science

3.95 GPA

4.13 GPA in CS classes

Graduated with B.S. in June, 2013

- Graduated with magna cum laude honors
- Achieved A+ grade in seven CS courses
- Received J. Donald Hubbard Family Scholarship in 2010
- Joined Upsilon Pi Epsilon Honor Society
- Invited to Golden Key Honor Society
